

Translational Research Support and Education: A Library-Based Approach

Zak Kohane, Harvard Medical School

Karen Butter, University of California San Francisco

David Osterbur, Harvard Medical School

Jean Song, University of Michigan

Kristi Holmes, Washington University School of Medicine

Translational science initiatives
have changed the face of
biomedical research

Translational Research Support

Where do libraries fit? Just about everywhere!

Support and education in a variety of areas:

- Author Support
- Research Efforts (software, databases)
- Clinical Topics
- Patent/Intellectual Property
- Medical Informatics
- Funding
- ...and more

Diverse perspectives from diverse institutions
