

Surgeon General's Office
May 23^d 1851. D. I.

Sir

I have just returned to Washington after an absence of several weeks and submitted your application for a furlough for one year to the Secretary of War who has directed it to be given at such time as you may wish. Nearly every officer of the Department being on duty and but one at a post with but two exceptions I will take some time to relieve you but I will endeavour to do it by the time you mention, that is "on or before the last of Sept^r next." I should ~~like~~ be much pleased to see Alexis on your route to the East

Very Respectfully
Yr. ob. Serv^t
