

But should be he talked <sup>more or less</sup> "voluntarily" with rigors  
or cool shewings. & Shewings. paled  
countenances. followed by high fever  
hot skin. restless sleep. tenderness of  
the throat externally. & redness & swelling  
& soreness of the glands & numerous may be  
internally. with great thirst & difficulty  
of breathing & oppression of respi-  
ration - when with or without any efflu-  
vescence or eruption on the skin. you  
must immediately have him bled. at  
the arm. or I prefer around the throat  
& back of the head & neck <sup>or scalp</sup> ~~with the hand~~ <sup>or scalp</sup> ~~with the hand~~  
<sup>or scalp</sup> ~~with the hand~~ <sup>or scalp</sup> ~~with the hand~~  
foundations. & smalls. & gargles. washes or  
Syringes internally with a solution of Nitrate  
of Silver - made. ʒor ʒ. grains to the ounce of soft  
Purified or distilled water daily or oftener. with a  
constant & frequent gargle or wash of  
fresh yeast sweetened with honey  
acidulated with Murret's acid. or  
a strong decoction of Bryonia <sup>or</sup> ~~or~~  
Salt & Syringes - which choked with phlegm  
& almost suffocated with mosted secretions in  
the throat. Give him the Emetic prescribed  
above. & repeat it as necessary to relieve  
from similar suffering from the collection of  
mucous in the Pharynx & Throat. following fresh  
repetition of the Emetic with a gentle injection  
to remove the loaves. If the Sord. & vascular  
Secretions be deranged & require correction

Give small doses of calomel. Spew nitre or a leech  
at short intervals till full biterns secretion be  
established but not to produce active purgation  
- Say Calomel. 2 grs. Spew  $\frac{1}{4}$  gr. Nitre or a leech  
1 gr. in Syrup of Roses or the like every 2 hours  
till the desired object be effected. If ulcerations  
or any malignant aspect make their appearance in  
the throat. Change the solution of nitre below  
for one of Sulphate of Iron (Copern) 2 grs to  
the ounce of Rose water & keep the throat  
& fauces washed with this instead of the  
nitre below & continue the other with  
increased assiduity & each feed  
If the tumefaction & internal soreness & difficulty  
of Swallowing & breathing do not abate promptly  
to the end of 4 or 5 days <sup>in 8 or 10 days if the sea</sup> apply fire  
blistering around the local from ear to ear  
with full draw. cut & pull off the  
skin & drop with an ointment composed  
of Stramonium, or Junon root. 1  $\frac{1}{2}$  & 20 grs  
of Sulphur Decimen rubbed together  
twice a day - If the nasal functions  
are naturally deranged with fluxing of the face  
& pain in the head, make the application of  
Sugar & water & bleedings of Ice if very intense  
Shave the hair & wash the head with  
application till the furrows become white  
If under these circumstances the eruption  
or efflorescence be suppressed or repelled
